18 November 1957

Dear George:

STATINTL

In order for you to be currently informed of our actions affecting your personnel advice is furnished that beginning 18 November 1957, we have made an increase in per diem payment to each employee continuing (on a new tour basis) with our [redacted] The rate being paid to your personnel effective 18 November will be the same paid all other affiliated employees including officers and civilians and is in lieu of furnishing room and board as provided for in our memorandum titled, "Assumptions and Understandings....." Any employee not signing on under a new tour concept will continue to receive the per diem rates previously established until his assignment is consummated.

The primary reason for the above is to eliminate existing dissatisfaction because the officers and civilians previously received a slightly higher per diem, which was designed to offset the incidental type of expense. Some of the suppliers, while agreeing with this approach of making the per diem rate uniform, have made compensating reductions in their extension agreements on the theory that allowance for incidental expenses previously existed in the foreign pay articles of their agreements. You are in a much better position to determine the factors existing in these matters, and we shall be pleased to cooperate in any way possible. We should ask that your understanding with employees continuing with either of the facilities on a "new tour concept" stipulate the beginning date as 18 November 1957. The beginning date of employment for any individual reporting to these units from the United States will be determined on an entirely different basis.

Sincerely,

Dan
